Distorted Penguins

It's unrewarding, just not affording
To burn one more bridge along the way
I wanna scream, just screw your scheme
This should've been done a long time agoNo, I will not listen to you
You've never known just what to do
Find something else to pursue
Find something away something new
No, that's all wrong
No, that's too long
Women you need to make up your damn mind
Dynamic duo don't make me puko
You suck, you suck, you suck, you suck beyondYou never knew me, yet you withdrew me
From every thing I could have wanted then
No, will not listen to you
Never know just what to do
Find something else to pursue
Find something away something new
