

Saviour

dredg

It makes me wish I was a banger
I'd come and retaliate
I tend to avoid impulsive gangster attitudes
'Cause they will blind you It's gonna eat you up, it's gonna drag you down
Gonna get all that you ask for
Affected many lives, left a void so wide
Gonna get all that you want Looking for a saviour
Not one who saves
Been looking for a saviour
One to retaliate There's no need for forgiveness
It's already said and done
But don't let revenge consume and take hold of you
'Cause it will blind you It's gonna eat him up, it's gonna drag him down
He's gonna get all that he asked for
Affected many lives, left a void so wide
Gonna get all that he wants Looking for a saviour
Not one who saves
Been looking for a saviour
One to retaliate Open up, open up
Open up, open up You affected many lives, you left a void so wide
Gonna get all that you ask for
It's gonna eat you up, it's gonna drag you down
You're gonna get all that you want Looking for a saviour
Not one who saves
Been looking for a saviour
One to retaliate Just one to retaliate
One to retaliate Open up, open up
Open up, open up
