Don't be a fool now, boy I'll leave you where you lay

And I got shooters, ain't no shame to what they do every day

Back in the day my record was is play  
I was trappin, ridin dirty, getting paid  
What? Cut the 5 keys in the back  
Hey let me tell you niggas something bout that  
My cousin too with the mayor, he got his work round the base  
And how much money he make, nobody know til this day  
My uncle quit, had the city sold up  
He did 10k and back I blowed up  
Every man that's statin bout me  
At 16 all I wanted was a key  
A bank roll, an apartment full of hoes  
Hey let me tell you something bout me case you didn't know(Hook)  
I play a lot of games but I ain't playin, I ain't playin  
Done say a lot of things but they ain't doin what they sayin  
I don't get it fucked up, them niggas scared not me  
Hold up, let me tell these motherfuckers something bout me
