

# Decision

## Fruupp

This time you should know  
Like the first time that I saw you there alone  
Like the first time that I knew you were my own  
The way you made me feel  
Like I was something that you couldn't live without  
Like I was someone that you couldn't be without  
Something came in between us  
Something made a change in you  
What can I do?  
So you made your decision  
I guess it's you that I'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the one  
This time you should know  
The way you made me feel so helpless and alone  
Erase the memories of all we've ever known  
Something came in between us  
Something made us break in two  
What can I do?  
So you made your decision  
I guess it's you that I'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the one  
Now I think I'm goin' crazy  
Now you're stuck inside my head  
I don't ever wanna feel this way again  
When you look in the mirror  
Does it all seem clear to you?  
Have I been used?  
So you made your decision  
It won't be me that you'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the one  
So you made your decision  
I guess it's you that I'll be missin'  
I lie alone in bed just wishin'  
That I had been the one, that I had been the one
