

Alteration X 10

Tiamat

It comes smoothly at start
Stirs gently in the colour pot
Centrifuge
Restore amends
For every spiralchange
A snowflake bride
A heroine (---heroin, psilocybin, mescaline, psilocin, fucking oxytocin
bitch)
A quark resolution of god
An angel in powder snow
Symmetrical asymmetry a newborn star of logic a newborn star of magic
Take a shortwave frequency ride
(any you like)
What you believe in, you'll find
Close your eyes to see
This will take awhile...
I wipe the steamy window lustre
Today I'll attend a new planet earth
After you sir...
