# You Gotta Move

## Hayley Jane and the Primates

My heart's on Fire
move it out
Get it wet
hang it dry

The planets align
work it out
make it shine
Blow my mind

You gotta move
You gotta move your friends and nature (nation?)

Oh the Cradle Town Queen (Cravens and Queen?)
build her up
she goes down
on the scene

Your pants on fire
work it out
make it pump
you're alive (a lie?)

You gotta move your friends and neighbors

My heart['s on fire
work it out
make it work
hang it dry

The planet's align
work it out
make it shine
blow my mind

My heart's on fire
my heart's on fire
