

# Air

## Astronoid

Empty light  
Colors shine  
Empty shell  
Losing airLonely you  
Nothing true  
Your first breath  
of new airThe unknown beginning to shine  
The future is better than bright  
A reason to all find out  
The focus of all our lives  
Fixated of novas at night  
A reason to all find out  
Facing you  
Tell your truth  
Your last breath  
Losing airThe unknown beginning to shine  
The future is better than bright  
A reason to all find out  
The focus of all our lives  
Fixated of novas at night  
A reason to all find out  
We walk away with dreams  
Floating in dark seas  
We live out all our lives  
We walk away with dreams
