

# When The Lights Go Down

Chad Brownlee

I back down that faded black asphalt  
every morning at half past 8,  
I roll my truck up the interstate drivin',  
to a job i know I hatebut i'm still there  
standing in the kitchen  
thinking 'bout that kiss goodbye  
it ain't fair  
cause I don't wanna missin' (?)  
gonna finish what I started tonight  
When the lights go down  
gonna shut the world out  
be the only two people in it  
I'll turn the radio low,  
love you good, love you slow  
and I promise you I won't forget it  
baby when the lights go down I go back sometimes to the weekend  
that we spend in panama city  
Yeah we got rained out walking down the beach  
Oh but damn, you sill look prettyBut here we are  
flying through the moments,  
living our crazy life  
you still got my heart  
and i know you know it  
but let me show it to you tonight  
tonight  
When the lights go down  
gonna shut the world out  
be the only two people in it  
I'll turn the radio low,  
love you good, love you slow  
and I promise you I won't forget it  
baby when the lights go down yeah yeah yeahGirl the only thing I'm thinking 'bout right now,  
is when the lights go down  
when the lights go downWhen the lights go down  
gonna shut the world out  
be the only two people in it  
I'll turn the radio low,  
love you good, love you slow  
and I promise you I won't forget it

baby when the lights go down
