

# My Heartstrings Come Undone (Acoustic)

## Demon Hunter

It's buried deep within the past and I  
Hope it doesn't last  
(It's something I already chase, I already chase)  
I try to give it all away, but it's never going to fade  
(It's something I don't want to face, I don't want to face)  
I know you feel it's all the same  
But I promise that I'll change  
(It's something I already chase, I already chase)  
You know I'm trying to believe  
That you're never going to leave  
(It's something I don't want to face, I don't want to face)There's nothing left  
The fear is gone[Chorus]  
And when my heartstrings come undone  
I will wait for you, pray for you  
Before I make my final run  
I will stay with you, decay with youI know I'm not the perfect one  
And this pain has just begun  
(It's something I already chase, I already chase)  
You bring me to a better path  
And it's everything I lack  
(It's something I don't want to face, I don't want to face)[Chorus]If you fade out without me  
Will you know all about me?  
If you fade out without me  
Will you know all?[Chorus]
