

Come With Me

Radical Something

Come with me
Well stay in now
I'll show you a good time x2
Come with me
Just one more ride
I'll show you a good time x2
I'm talking light speed light speed
Feeling really fiesty
Throwing on some old school Nike's
Going to the spot my dude's rocking shirts from the 90's
Today is the day
I put 22 behind me
A second wind's coming on
All I gotta do is listen to this song
And I'm ready for the night to begin
My only question is ladies and gentleman
Are you coming with?
Chorus
Come with me
Well stay in now
I'll Show you a good time x2
Come with me
Just one more ride
I'll show you a good time x2
Feel the heat
It's why we're banging to the beat.
It's crawling on my neck
and it never lets me sleep
and I want you going crazy
Dripping sweat off your forehead
Dont stop dancing until the dance floor's wet
The crowd says give us one more set
Give me one more track
When we back on stage we gunna do it again
I tell my dudes in the front that they can jump right in
It's like that
Chorus
Come with me
Well stay in now

Come with me
Just one more ride
Come with me
we'll stay in now
Come with me
Well stay
Showing a good time x2
Come with me
Just one more ride
I will show you a good time x6
