## Swervedriver

How does it feel to feel?  
You know it's for real  
Don't say what died  
You know it's alive I watch from reel to reel  
Don't see what I feel  
Split open wide  
A wash in the tide The beach seems surreal  
Depends how you feel  
The sea stretched for miles  
I drove all the while You ask what I feel  
I still feel surreal  
Taken for a ride  
And bleeding inside How does it feel?  
You know it's for real  
Split open wide How does it feel to feel?  
You know it's for real  
The sea stretched for miles  
I drove all the while Don't see what I feel  
Don't see what I feel  
Don't see what I feel  
Don't see what I feel
