

Somebody Needs You (feat. Greg Dulli)

Lo Fidelity Allstars

precious somebody wants yai think i met you at a party and left with an impression
like foxy i want you
i wonder what her mouth tastes like
i wonder what she look like in the morning
what you look in in the morning childsomebody wants ya
somebody needs ya
together we can take it homeyour lips girl they kill me
confuse me and fulfill me
your bodys like a road
come slip that knot around my throat
baby watch me swoon
baby and do my thingcome on clap your hands little momma
and do what your daddy said
saw you shake your ass on the corner now get it on back to bed.
saw you shake your ass on the corner now get it on back to bed.
saw you shake your ass on the corner now get it on back to bed.somebody wants ya
somebody needs ya
together we can take it homecome on shake your ass on the corner
now get it on back to bed
ill take you home
