Time After Time

Angel

Well I know
Love struck
If you know what I mean
I don't mean to be doing what I'm doing
When I'm doing what I'm doing
Does that make sense?
Damn I don't mean to make her cry, that's wack
Can't believe I went and broke her heart like that
No, she don't wanna take me back
If I was her I wouldn't take me back
No, the parties and the women
She's sleeping by herself while I'm out here slipping
Thinking to myself what the f*ck was I thinking
She always held me down, she was there from the beginning
If only I could take it back
Every bad deed I would eraaaaase
I must admit that I got out of hand
A different girl each and every daaaay
Tiffany, Stacey, Tracey
Um, I stop remembering naaaames
You can blame me, this is my fault
I'm really only sad I got caught
No I don't wanna leave
But I can't stand to spend another day
By your side
And I wish you could believe
But I did it time after time
I did it time after time
Time after time
Next time it'll be different um
Time after time
Next time it'll be different um
Time after time
Eh, if you're able and you're willing

I did a lot of dirt so I need forgiving
Wait, I know you're packing and you're leaving
You're cursing and you're fussing
Then we fight and then you're screaming
You're tired of the lies I wanna work it out
You wanna say good bye yeah
I made my bed so I know I gotta lay in it
I just wish that you would stay in it
If only I could take it back
Every bad deed I would eraaaaase
I must admit that I got out of hand
A different girl each and every daaaay
Tiffany, Stacey, Tracey
Um, I stop remembering naaaames
You can blame me, this is my fault
I'm really only sad I got caught
No I don't wanna leave
But I can't stand to spend another day
By your side
And I wish you could believe
But I did it time after time
I did it time after time
Time after time
You know the last time
It's the same thing that you said eh
And now I'm laying here
Just crying by the bed
I wish that you'd believe me
But I know you can't
Cause I hurt you time and time again
No I don't wanna leave
But I can't stand to spend another day
By your side
And I wish you could believe
But I did it time after time
I did it time after time
Time after time
Next time it'll be different um, different um
Time after time
Next time it'll be different um, different um
Time after time
