

# Dama Dama

## Raphael

Listen deeply, to the rustle of the leaves  
Do you hear their song  
Listen children, do you think you might believe  
Can you sing along  
The wind blows down upon the water  
As the waves begin to form  
It brushes up along my shoulder  
Tell me, where did you come from

Dama Dama, Dama Dama

Breathe in slowly and enjoy the midnight air  
Come to me my love  
Take the moment, cast away all your cares  
To the stars above  
The moss that lays down on the floor bed  
Reaches up to touch my skin  
And calls me to lay down upon it  
Will the moment come again

Dama Dama, Dama Dama

Look inside you, do you see the light within  
Reaching out to you  
Feel the magic as it wraps around your soul  
Do you feel brand new  
The waiting and the wondering  
Have become the gifts of time  
Walk with me along the journey  
Together we both can shine
