

Pretty Please

Verbena

Oh, hey man, I'm just a sucker for a sin
You never ever have to pay
And we can kiss with open mouths
What can you do is, is that you're uptight
We can play that all nite, we can play submission
I love to play submission Oh, please, I'll wait all day while chewing nails
She's so pretty, he's so pretty
Burn the city, take their money Oh, hey man, I never know to say "Amen"?
I always never understand
And we should kiss with open mouths
What can you do is, it that you're uptight
We can play that all nite, we can play submission
I love to play submission Oh, please, I'll wait all day, and chew at nails?
She's so pretty, he's so pretty
Burn the city, take their money I think that we should fall in love
Or maybe we should fall in love
Oh, I just love to fall in love
And we can love to fall in love
She's so pretty, take their money Were gonna take their money
Take their money
Were gonna take their money
Take their money
Were gonna burn their money
