Dust

Dark Side Cowboys

I watch the sign of love as you surrender
I wipe the last tears from your eyes
It seems we're all forgiven
It seems there's no return
People are deaf and blind
We aren't looking for salvation
Dust
The skies are grey and the ground is frozen
The walls are black and won't do you harm
It's burning through your skin
Your wounded, precious skin
And People are deaf and blind
See the stranger as he cries
We're all lost, We're going down
Death is close, a warning sound
Dust
Obsessions in my brain
Standing by a cross
We aren't looking for salvation
Dust
We're all forgiven
By God
A hand, for you, rip it all apart
I played with your heart
Dust
Amen
