Dreamer

Carl Thomas

I used to love to dream out loud
Stand in the middle of an open crowd
Then everybody would see me
But I was just a little project child
And I was just a dreamerAnd as I proceed to reach my teens
Responsibility was far it seemed
And in my heart I really wanted to sing
And I gave my heart to dreamWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceNow everybody knows my name
My nights are famous but my days' the same
And you make me know this love is real
'Cause that's exactly how you make me feel
Everyday I'm dreamingOh she can tell me what I can do
'Cause I can always find a way to prove
That you can always count on me
Even though I lie awake and dreamWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceI'm here because you've got me through
Made understand those things that I couldn't do
And I'll show my love to make you see
That everything I have without you it will never beWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceWhen I see you I wanna thank you

Just let me shake your hand
And tell you I appreciate you
Just for this chanceWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceWhen I see you I wanna thank you
Just let me shake your hand
And tell you I appreciate you
Just for this chanceOh girl oh
Oh girl ohWhen I see
Oh when I see you
When I see
I wanna thank you, oh
