Save Me

[Skillet](#)

This is the place that no one sees
I don't like to show (I can't help it)
This is the darkness over me
It's just the world I know (I can't stand it)Reachin' for the light
Reachin' from inside
Help me tonightI'm closer to the edge tonight
I'm standin' on the ledge, so why
Hold you, reach out your hand
To save (To save), to save me tonight
I'm damaged if you dare tonight
It feels like no one cares, so why
Can I come back for air?
To save (To save), just save me tonight
What are you waitin' for?
Someone save me
Peel back the skin, exposed to you
Take pleasure in the pain (Please stop starin')
Tell me what I'm supposed to do
It ain't easy to open up this way (I can't help it)Reachin' for the light
Reachin' from inside
Help me tonightI'm closer to the edge tonight
I'm standing on the ledge, so why
Hold you, reach out your hand
To save (To save), to save me tonight
I'm damaged if you dare (Tonight)
It feels like no one cares, so why
Can I come back for air?
To save (To save), just save me
What are you waiting for?
Someone save me
Reachin' for the light
Reachin' from inside
Help me tonightI'm closer to the edge tonight
I'm standin' on the ledge, so why
Hold you, reach out your hand
To save, to save me tonight
I'm damaged if you dare, tonight
It feels like no one cares, so why
Can I come back for air?

Just save (Just save), just save me tonight
I'm closer to the edge tonight
I'm standin' on the ledge, so why
Hold you, reach out your hand
To save (To save), to save me
What are you waitin' for?
Someone save me
