Nihil Sleighride

Turbonegro

Come walk with me up to the mountain
The landscape's icy and it's bare
If you want to be among the eagles
Just try to follow if you dareNever is forever at least until December
I don't think I'm going back again
Never is forever as far as I remember
I don't think we'll ever meet againThe air is thin, the cold makes you shiver
But you can take it if you've got the nerve
Gather all your strength and deliver
You're a straight line and not a curveNever is forever at least until December
I don't think I'm going back again
Never is forever as far as I remember
I don't think we'll ever meet againOh, oh, oh, oh, oh, oh, heyNever is forever at least until December
I don't think I'm going back again
Never is forever as far as I remember
I don't think we'll ever meet again
