Clown Show

Ednaswap

Your money's dripping like honey sticking
Just as foreign to me
Been wasting my time convincing you to buyWhat you can't afford to need
Oh, I've come through this phase
I'm out, your raceI said I'm washing my hands off you
With my industrial broom
Sweeping you under my carpet
It covers the roomI've been clearing my head for days
Of the incredible waste
Making it easy to forget you
Darkened the placeOh, you're a coward and I'm empowered
To keep track of everything, yeah
Those who you can trust, those who become dust
It's more fun than you might think, yeahI said I'm washing my hands of you
With my industrial broom
Sweeping you under my carpet
It covers the roomI've been clearing my head for days
Of the incredible waste
Making it easy to forget you
Darkened the placeSo I killed your pride for fear of suicide
I think it's all for the best
I'm only human, that's more than you've been
I'm leaving you to the rest, yesI said I'm washing my hands of you
With my industrial broom
Sweeping you under my carpet
It covers the roomI've been clearing my head for days
Of the incredible waste
Making it easy to forget you ever
Darkened the placeYou ever darkened the place
So fucking easy
