Quo Vadis

Lower Dens

Don't rely on me
You know these things happen
It's a it's a it's a one in a million
It's a single drop in the ocean
And then we all disintegrateAnd we don't have time
Because time is a hook on a line
and we're spinning for our whole our lives
Trying to surviveThey don't, they don't, they don't know anything
They never seem to know anything
But baby they wanna sayIt's impossible love
what I dream ofI wanna be with you aloneI wanna be with you alone
oh but I,
I wanna be with you alone
Wish I could
I wanna be with you aloneBut we don't always get what we want
No, we don't always get what we want
