Balloon

Juliette Reilly

I feel like flying away from my problems

Let's go, keep goin

I feel like tasting the sweetest of solvents

You know, just float

I might let you think

I need your air to breathe

But I self-sabotage like its my job

when I work I work hard

when I live I live large

when I love baby I'm all in

when I love baby I'm all in

And when I break I break free

you can try to hurt me

when I lose baby you can't win

when I lose baby no one wins

You're my balloon

and I'm your pin

I feel like hell is one jump from this high ledge

I'm broke I'm broken

But I hear that doubt is the key to new knowledge

Let's go, keep goin

Abandon my dreams

At least once a week

I self-sabotage like it's my job

when I work I work hard

when I live I live large

when I love baby I'm all in

when I love baby I'm all in

when I break I break free

you can try to hurt me

when I lose baby you can't win

when I lose baby no one wins

You're my balloon

and I'm your pin

(It's like salt in the wound

It's like cold to the touch

It's like out of my element never thought I would let anyone matter this much)

It's like a pin in a balloon

It's like alcohol and blood

It's like out of my element never thought I would let anyone matter this much.

It's like

when I work I work hard

when I live I live large

when I love baby I'm all in

when I love baby I'm all in

when I break I break free

you can try to hurt me

when I lose baby you can't win

when I lose baby no one wins

You're my balloon

and I'm your pin

when I work I work hard

when I live I live large

when I love baby I'm all in

when I love baby I'm all in

when I break I break free

you can try to hurt me

when I lose baby you can't win

when I lose baby no one wins

You're my balloon

and I'm your pin
