

I Wanted It All

Rita Coolidge

I wanted it all right from the beginning
The more that I saw of what could be mine
So young and so faithful, too hungry and blind
Sure took a fall, I wanted it allThe side I was on was where I could get it
 Into the streets where it's easy to use
 Taking my brother, getting down on the blues
 Sleeping in halls, I wanted it allFires keep burning just to become ashes
You change your mind as fast as lightning flashesI wanted it all up to the last minute
 I took you for real and you took me apart
 Two gamblers felt lucky, but one had the cards
After the fall, I wanted it allWell, you're telling me, oh, what you believe in
 You say you want someone who has nothing to give
 Say I'm empty handed and I don't know how to live
I don't believe you at all, I wanted it allYou never knew me at all, I wanted it all
 I wanted it all
