Our Own House

MisterWives

Came in like the breeze,
I felt it in my knees
Never will it leave
Each day it is retrievedSeems like yesterday
Your eyes craved this way
Into my soul you stared
And bored down every fearWe built our own house, own house
With the hands over our hearts
And we swore on that day
That it'll never fall apartWe built our own house, own house
With our hands over our hearts
And we swore on that day
That it'll never fall apart
Will never fall apart-art-art
Will never fall apart-art-art
With our hands over our hearts
Will never fall apart-art-artWake up to the sun
Clouds always come undone
You give the light I need
Like water to a seedWading in until
One to talk to be real
And prove me wrong it seems
A heart can truly gleamWe built our own house, own house
With our hands over our hearts
And we swore on that day
That it'll never fall apartWe built our own house, own house
With our hands over our hearts
And we swore on that day
That it'll never fall apart
Will never fall apart-art-art
Will never fall apart-art-art
With the hands over our hearts
Will never fall apart-art-artTake it all, take it away
We'll still have the sun dying
And the love that is beating
'Till our lungs stop breathingTake it all, take it away
We'll still have our riches,
No need for stitches
'Cause love melts the painTake it all, take it away

Take it all, take it away
Take it all, take it away
Take it all, take it away
Take it all!We built our own house, own house
With our hands over our hearts
And we swore on that day
That it'll never fall apart
Will never fall apart-art-art
Will never fall apart-art-art
With our hands over our hearts
Will never fall apart-art-art
