

The Valleys

The Mountains

Falling like a lightbulb
This will mess up every plan that I'm made of
I've been waiting in the valleys for a sure sign
That there's gonna be light
In the dark behind our hearts
And we never figure out if they're our parts
I've been waiting in the valleys for someone
To bring a proper guide Through the valleys and mind
Through the mountains and lakes
If they tear me apart
Glue me back into shape In the dark in the day
I was never afraid
If they tear me apart
Glue me back into shape Breathing in echoes
I will follow you where ever the trail goes
I've been waiting in the valleys not knowing
If they caught me on tape Falling like a lightbulb
Turning to a thousand pieces if I explode
I've been waiting in the valleys for someone
To glue me back into shape Through the valleys and mind
Through the mountains and lakes
If they tear me apart
Glue me back into shape In the dark in the day
I was never affraid
If they tear me apart
Glue me back into shape Through the valleys and mind
Through the mountains and lakes
If they tear me apart
Glue me back into shape In the dark in the day
I was never affraid
If they tear me apart
Glue me back into shape Through the valleys and mind
Through the mountains and lakes
If they tear me apart
Glue me back into shape In the dark in the day
I was never affraid
If they tear me apart
Glue me back into shape
