

S.O.S.

The Suicide Machines

Advisory - the following lyrics contain explicit language:

I take a look around, I don't like what I see
A bunch of people who don't know shit about Unity
I see right through your skin, you say you see through mine
Then please explain to me why we fight all the time
I can't take it anymore, this is bothering me
Got people killing each other
Why does this have to be?
I wish I knew, I really wish I knew
How people can see there's no real difference between me and you
It's a bomb with a short fuse
And I know it seems like no use
The tension's building a reaction
This is a call to action
S.O.S. we need help [Repeat x4]
Man's inhumanity towards another man
It's man's insanity and ignorance again
And now the time had come to stop what's going on
The hatred's building up, exploding like a bomb
It's a bomb with a short fuse
And I know it seems like no use
The tension's building a reaction
This is a call to action
S.O.S. we need help [Repeat x4]
The bomb is gotta stop the bomb is gonna pop! [Repeat
x4]
It's a bomb, it's a bomb!
It's a bomb with a short fuse
And I know it seems like no use
The tension's building a reaction
This is a call to action
S.O.S. we need help [Repeat x4]
Drop, drop, drop, drop, drop, drop, drop, drop!
