

# MotÃ¶rhead

## Motorhead

Sunrise, wrong side of another day  
Sky high six thousand miles away  
Don't know how long I've been awake  
    Wound up in an amazin' state  
Sunrise, wrong side of another day  
Sky high six thousand miles away  
Don't know how long I've been awake  
    Wound up in an amazin' state  
    I can't get enough  
    You know it's righteous stuff  
Goes up like prices at Christmas, this  
    Motorhead, you can call me  
    Motorhead, all right  
    Brained out, total amnesia  
    Get some mental anesthesia  
Don't move, I'll shut the door, kill the lights  
    If I can't be wrong I must be right  
    All good clean fun  
    Have another stick of gum  
Man, you look better already, aah  
    Motorhead, remember me now  
    Motorhead, all right  
    (Fuck)  
    Fourth day, five day marathon  
    We're movin' like a parallelogram  
Don't move, the mornin's not a pretty sight  
    I guess I'll see you all on the ice  
    I should be tired  
    All I am is wired  
    Ain't felt this good for an hour  
    Motorhead, remember me now  
    Motorhead, all right
