

Walking Dead

Decyfer Down

Pull the trigger now, end me
Mark me for the kill like I marked your hands, your feet
I spilled all your blood, flowing deeper
To suffocate the sin till I'm drowning you again I am so alive since you took my life
I'm walking dead now, only you remain, yeah
I take the life you gave, I walk from the grave
I'm walking dead now, I am not afraid Stabbing deeper now, spill me
My body left for dead like I pierced your side until it bled
And the blood flows freely
It fills me till I see that there's nothing left of me I am so alive since you took my life
I'm walking dead now, only you remain, yeah
I take the life you gave, I walk from the grave
I'm walking dead now I am so alive since you took my life
I'm walking dead now, only you remain, yeah
I take the life you gave, I walk from the grave
I'm walking dead now, I am not afraid I am so alive since you took my life
I'm walking dead now, only you remain, yeah
I take the life you gave, I walk from the grave
I'm walking dead now, I am not afraid
