

Main Course

Freddie Jackson

Now how does a guy like me
Get to know a pretty lady like you, pretty baby
I know that it sounds like a line
But I had to throw it at you, hold me, better catch me

If only you knew that I would cherish you
And give me a chance to let my love go down
Youâ€™ll find Iâ€™m the one that youâ€™ve been lookinâ€™ for
Baby, all your life, yeah

If you taste a little bit of my love (Taste it, baby)
I promise you, girl, youâ€™ve got the full main course
And if you taste a little bit of my love (Taste it, baby)
I promise you, girl, youâ€™ve got the full main course

I donâ€™t wanna appear to be rude
But your mama made you for me, your fatherâ€™s really cookinâ€™
Now I might sound crazy to you, girl
But it sure would be a sin if I never see you again

Girl, you donâ€™t know how much you turn me on
Please give me a chance to let my love throw down
You wonâ€™t regret a single second, minute
hour, day or rest of your life, no

If you taste a little bit of my love (Taste it, baby)
I promise you, girl (Oh, yeah), youâ€™ve got the full main course (If you)
And if you taste a little bit of my love (Taste a little bit)
I promise you, girl (Yeah, yeah, yeah), youâ€™ve got the full main course

If you taste a little bit of my love (Taste it, baby)
I promise you, girl, youâ€™ve got the full main course (You got the main course)
And if you taste a little bit of my love (Every little bit, baby)
I promise you, girl, youâ€™ve got the full main course (Oh...oh...oh...)

Ooh, baby
Everything, everything
Everything, everything
Baby, baby
Iâ€™m in love, I want you

Oh, ho, oh, oh, oh, ho...

Hoo...ooh...ooh...

Every little bit of love

If you taste a little bit of my love (I promise you, baby)

I promise you, girl (Hey), youâ€™ve got the full main course (You want it all)

And if you taste a little bit of my love (You want every little bit)

I promise you, girl, youâ€™ve got the full main course (Come on and taste a little bit)

If you taste a little bit of my love (Taste a little bit)

I promise you, girl (Yeah...), youâ€™ve got the full main course

And if you taste a little bit of my love (Taste a little bit, try a little of my love)

I promise you, girl (Hey), youâ€™ve got the full main course (Youâ€™re gonna want it all)

If you taste a little bit of my love (Yes, you will, every little bit of my love)

I promise you, girl, youâ€™ve got the full main course (You want the main course)

And if you taste a little bit of my love (The main course, yes, you will)

I promise you, girl, youâ€™ve got the full main course (You want the main course)

If you taste a little bit of my love (Oh, try a little bit)

I promise you, girl (Try a little bit), youâ€™ve got the full main course (Ooh, ooh)

And if you taste a little bit of my love (Ooh, ooh)

I promise you, girl (Hey, hey), youâ€™ve got the full main course (Ooh...ooh...ooh...ooh...)
