

# Test Me (feat. Mick Jenkins)

CGB

[Verse 1: Mick Jenkins]

Back porch probably with the squad n them

We got all that smoke now

He don't want that problem

Truth that make you choke now

Miss me with the nonsense

They keep calling me conscious

I just use my conscience, constant

Reminder when I see her eye

I can't let that freedom stop

The darkness that I bring to light

Like every lines a kilowatt

Kilogram, Cee Lo Green, see no star

Piling up, I'm wilin out

Surrounded by the wave

I'm on the island now

Isn't it ironic?

I got em hooked on phonics

And my momma used to think

It was just chronic, it was all bad

Now she see a G standing tall

Like the all caps is on

With the truth and tree

Fuck what y'all cats is on

I mean y'all cats is onbullshit[Hook: Mick Jenkins]

I'm calm in confession to the preacher in the pulpit

Test me, I pray everyday that the lord bless me

So come test me, please test my patience

Test my patience[Bridge: Mick Jenkins & CGB]

Either on your accord or it's coming from the lord..

Test my patience

Either on your accord or it's coming from the lord..

Test my patience

Either on your accord or it's coming from the lord..

Test my patience[Verse 2: CGB]

Young mothafuckas on the scene

Whatchu thought it was?

Spittin' out this knowledge

But I never went to college, cuz

Never giving up until I move this product  
And I get a lot of buzz, yeah I got a lot of boys  
A lot of blunts.. A lot to stunt  
I ain't doing that til I'm runnin front  
Your girl, she runnin train  
And I ain't out there totin' guns  
I'm just tokin' tons, so me n Mick, we roll it up  
All the finest shit, THC got me feelin fucked  
3 Dutches and a Wood in this bitch  
And it's lit, so I'm asking you what do you THINK?  
Got the trees and the truth  
Down it with the waters  
Waves be surrounding us too  
Stay grounded my dude, but I'm lifted  
They probably notice that we rip shit, misfits  
They probably notice that we run tings, it's business  
I'm just lookin out for my family  
You think I give a fuck 'bout the state of my sanity?  
Test me[Hook: Mick Jenkins]  
I'm calm in confession to the preacher in the pulpit  
Test me, I pray everyday that the lord bless me  
So come test me, please test my patience  
Test my patience[Bridge: Mick Jenkins & CGB]  
Either on your accord or it's coming from the lord..  
Test my patience  
Either on your accord or it's coming from the lord..  
Test my patience
