At The End Of My Daze

Trouble

A stranger he's so lonely because
We can't see where the quiet winds live
Streets where all the old folks give so much
So much loveAt the end of my daze
Time to change my ways
At the end of my dazeElectric green machine, do you know what I mean?
If you're so full of fear
Why then are you dreamin' here
You are, you are hereAt the end of my daze
Time to change my ways
At the end of my dazeAlone in the universe seems our lives are cursed
See where eyes cannot follow
And believing there is tomorrow
It's here, it's here nowAt the end of my daze
Time to change my ways
At the end of my daze
