# Through The Rain

## Willy Cruz

I know it's hard, in a world gone mad
To find no truth, to understand
And I know it's hard, to turn the page
To walk a line, to have the faith
Sometimes when it's light and you can't see
And sometimes when this world, just seems to be so cold, yea
Sometimes when you're lost at sea, drownin' in your pain
Sometimes the sun shines through the rain
I know it's hard, in a world so cold
To feel the love, I know it's hard
And I know it's true, that in the end
We all find our way, and that's life my friend
Sometimes when it's light and you can't see
And sometimes when this world, just seems to be so cold
And sometimes when you're lost at sea, drownin' in your pain
Sometimes the sun shines through the rain
World keeps turnin', nothin' changes
Hope this time, we can rearrange the stars
I can't be that hard, no
Sometimes when it's light and you can't see
And sometimes when this world, just seems to be so cold
And sometimes when you're lost at sea, drownin' in your pain
Sometimes the sun shines through the rain
Sometimes when it's light and you can't see
And sometimes when this world, just seems to be so cold
And sometimes when you're lost at sea, drownin' in your pain
Sometimes the sun shines through the rain
Ooh, let it shine
Shine through the rain
Ooo, let shine
Shine through the rain
Sometimes the sun shines through the rain
Don't you know it's gonna shine, yea?
Shinin' down on you
Sometimes the sun shines through the rain
