

Endless Slaughter

Limp Bizkit

I woke up feeling like I need to get out of the house right now.
I'm feeling like going downstairs.
Take a deep breath!
The whole world just might be ending today. Get it together, stay calm, stay calm!
How am I supposed to stay calm?
Poor little kid, momma ruined his brain.
Why am I living this way? Why? 'Cause I'm a loser.
I was always told that.
Now I'm a loser and I love it.
I fucking love it. I love it till my brother's just a puddle in a bucket.
And everyone around me they all die and they say fuck it.
Why is what, pourin' all of my feelings through your head.
And I ain't gonna settle till that shit reaches your voice. And now you on your ass and now you wanna ask,
Knowin' you ain't listenin' to this shit 'cause you an ass.
Life ain't gonna sneak up on your ass and take a bite,
It's gonna take that life back baby it's life! Life is born in the battlefield,
Girls, boys will learn to kill,
On with the endless slaughter! Born in hell, givin' you all my time in hell,
And I love it oh no, no, I'ma go psycho on this, bro.
You're a sad lawless whore doin' this war inside out for,
You want war, get in sync, now I love it more! Now you on your ass and now you wanna ask,
Knowin' you ain't listenin' to this shit 'cause you an ass.
Life ain't gonna sneak up on your ass and take a bite,
It's gonna take that life back baby it's life! Life is born in the battlefield,
Girls, boys will learn to kill,
On with the endless slaughter! All I know is I'll never know!
All I know is I'll never know!
You cannot take this away from me!
This is the one thing you cannot take away from me! I am no longer under you!
You are the one who is under me now! I am no longer under you!
You are the one who is under me now! I am no longer under you!
You are the one who is under me now! I am no longer under you!
You are the one who is under me now! The one who is under me now!
The one who is under me now! Took a lot of time, time with a chance,
Gonna put these motherfuckers on the floor so they can dance.
I'ma need a little kimchi, take a pump, load it up,
Throw it in the back with the jaguar loaded up. Been drinkin' muff since the 1819,
How about goin' meet us in the back on the 9th green?
Pussy hole never made a tootsie roll give a shit,

Clean up in this bitch just like a bag of gold, here we go! Oh my God it that white rapper guy,
That white leo tellin' everybody gemini.
That's me I'm the leo on the flo,
Baby girl tell me your sign before you go. 'Cause I'm about to chip it in the hole like bubba,
Hope I don't bust another hole in the rubber.
'Cause I ain't got another baby name I can use,
Maybe Tom Cruise, I'ma about to hit tree to fix. So what you really know about that?
Probably nothin', you ain't know about nothin', nothin'.
You got somethin' to say, then say it.
If you gonna say it then fucking say it. I ain't afraid to look you in the face.
What you gonna say, what you gonna say when I'm in your face?
Tell me boy what you gonna say when I'm in your face,
I'm gonna grab a dirty fork and jab your eyes out.
