Love Radiates Around

The Roches

by Mark JohnsonBeyond this world came a power
Struck into me I don't know how
It happened slow I want you to know
Her love is true music and it
Radiates aroundHere comes a new day: clouds roll away
Don't ask me, I don't know a thing
Let's drive to town across the border line
Her love is true music and it
Radiates aroundMy chance for true happiness
It waits upon her kiss
How can it be, it feels so good to know all this
