Willowy Man

Elf Power

Once a willowy man
Made his way across the earth
He saw shining seas and emerald trees
And the worms laughing in the dirtHe would memorize the planets
And the stars above
And dream a secret dream
About the ones he lovedOnce a slippery man
Made his way across the sea
He saw tiny fish and made a wish
And changed into you and meThey would float upon their backs
To watch the stars above
And dream a secret dream
About the ones they loved
