You're the Only One

Dolly Parton

I found out the hard way and I'm never gonna break your heart
I know too late and I don't want to break your heart
Guess I had to go away just to find what I left behindYou're the only one you're the only one
Take me back to where we started from
And let's make it now like we made it then
This ol' heart ain't gonna break your heart againNights I lay in bed and your covers wouldn't warm my feet
And mornin' found me bitter or a bit too sweet
Oh baby I had to go away just to run back and sayYou're the only one you're the only one
Take me back to where we started from
Can we make it now like we made it then
This ol' heart ain't gonna break your heart againYou're the only one darlin'
They'll never be anyone else but you
I love you so much
You are my love you've become my life
And I never meant to break your heart
But sometimes you just got to go away
To find what you left behindYou're the only one you're the only one
Take me back to where we started from
Can we make it now like we made it then
This ol' heart ain't gonna break your heart againYou're the only one you're the only one
You're the only one the only one
So take me back to where we started from
You're the only one the only one
You're the only one
You 're the only one the only one
Take me back to where we started from
You're the only one the only one
You're the only one
You're the only one the only one
You're the only one
