A Million Years

Alexander

I love you like grave danger
Like moon shining disguise
Mmm hmm
When I wake up with your makeup
And spread blush cross the skyLike a meteor crush
I'm gonna tell the world
Been a million years full of tears
But I found my girlMy notion of love devotion
Was a corrosion of mind
Mmm hmm
Then come cupid and now Im stupid
And I feel its just fineLike exploding face
Im gonna tell the world
Been a million years full of fears
But I found my girlIts a spun tongue
Its a holy shit
Its a loud cry from the heart
Its a live death
Its a big breath
Its a no more were apartLike a rainbow crash
As we bow and swirl
Been a million years full of tears
But I found my girlLike exploding sun
Let the light unfurl
Been a million years full of fears
But I found my girl
