Sing

Vega 4

I don't wonder why the world is like a sea
That I've been swimming in
And how long can I hold without breathing in?I just need to fly like I'm a shooting star
See the world and the way we are
And how long can I last without breathing out?And I will sing for all the people
That I feel love
And I will sing for all the people
That I feelI don't want it all, just most of everything
I want to soar on a street kids dream
And how much can I take without caving in?And I will sing for all the people
That I feel love
And I will sing for all the people
That I feelI just want to fly like I'm a satellite
See the world and the way I am, oh
We can sing our songs across sons of God
Feel the crowd and the ego sinAnd I will sing out, I will sing out
And I will sing for all the people
Now I sing love
And I will sing for all the people
That I feel
