

castaway

Danny Kirwan

Written by danny kirwan.I wanna see your love
I wanna hear you say
The things that mean so much to me'cause our love could last forever
Or it could fade away
Across the ocean
Deep commotion
Castaway
Across the ocean
Deep commotion
CastawayHow can I get an answer
When you don't even call
To hear the things I want to say
'cause our love could last forever
Or it could fade away
Across the ocean
Deep commotion
Castaway
Across the ocean
Deep commotion
Castaway
CastawayAnd now I'm on my own
Into the sunny day
And then the leaves on the trees
Start to swayAnd now I'm on my own
Into the sunny day
And then the leaves on the trees
Start to swayThen thoughts of you start to spin around my head
Thinks he'd rather be with you instead
Then thoughts of you start to spin around my head
Thinks he'd rather be with you insteadI wanna see your love
I wanna see your love
I wanna see your love
I wanna see your love
