

# Let Me Go

[Scott Stapp](#)

Tell me friend is this forgiving  
Tell me friend are you believing  
Tell me friend if it's worth the fight So please let me go  
So please let me go  
Let me go What's the use of our deceiving  
What's the use so stop retreating  
We are lost and all our hope is gone So please let me go  
So please let me go  
Let me go So please let me go  
So please let me go  
Let me go Once a boy I was forgiven  
Now a man I'm lucky living  
Always know our memories will live on We'll live on  
We'll live on  
We'll live on  
We'll live on So please let me go  
So please let me go  
Let me go So please let me go  
So please let me go  
Let me go  
Let me go
