

New Age Holocaust

I Declare War

We will not bow to this idea
One nation
One government
Pure tyranny is at hand
They want us to go unheard
They want us to go unheard
But this is the truth behind the front lies
The New World Order is taking over the world in which we live
Trying to purify a master race
Just like the Nazis in the 1940s
Only our blood will be on their hands
Our blood is on their hands
Wake the fuck up
It's all around us
Homosexual bashing, police brutality
We are simply repeating our history
When will we make a change?
To overthrow our oppressive government
That cashes in, on human suffering.
That cashes in, on human suffering.
That cashes in, on human suffering.
Who are you to judge someone else's fate?
Who are you to decide who can procreate?
This is the fucking end
Now gouge out our fucking eyes
And make us realize
Gouge out our fucking eyes
And find the truth behind the lies
