What So Not

Can you see that?
Is that how you really feel?
When I do that
Is that all you really need?
When I say this
Will you come home?
When I do this
Will you come home?

Will you come
Will you come
Will you come
Will you come home?

Can you see that?
Is that how you really feel?
When I do that
Is that all you really need?
When I say this
Will you come home?
When I do this
Will you come home?

Will you come
Will you come
will you come
will you come home?

Can you see that?
Is that how you really feel?
When I do that
Is that all you really need?
When I say this
Will you come home?
When I do this
Will you come home?
