Cut Me Loose

Sam Sparro

When I hear that bass start to thumpin'
Me and my whole body get to jumpin
I snap my neck, my back and shake my rump and
Just cut it loose, (loose) I just cut it loose (hey, hey)
When the day behind ya leave's you shatterd
I only know one thing that makes it better
So call you girl and boys and get 'em out to (call your girls and call your boys up)
Help you cut it loose, (cut it loose) shake that caboose (oh yeah)Nothing cuts me loose like the music
I cut a rug up all night long when I hear my favourite song
Nothing cuts me loose like the music
I said it cut me loose it just cut me loose (yeah)I wanna see you cut it, heyyyySee that sexy girl over by the bar there (hi)
She said, "hey do you wanna come for a ride in my car yeah?"
(do you wanna come for a ride in my car?)
I sad, "sexy girl are you delirious? I can't leave right now these tunes are serious"
heyeyeaheyaheh
The bass slapped me in the face and I stepped so hard I almost shook the place
Got snare in the air like a cool breeze and those nasty keys are the bee's kneesNothing cuts me loose like the music
I cut a rug up all night long when I hear my favourite song
Nothing cuts me loose like the music
I said it cut me loose it just cut me looseI cut a rug up all night long when I hear my favourite song, music
It takes me away and it cut me looseSweaty, getting sweaty
Nothing in the world is quite as nice
If you get there early, like say by 10:30
You can get inside the club at half the price
That's cold as iceIt takes me away and it cut me loose, It takes me awayNothing cuts me loose like the music
It takes me away
Nothing cuts me loose like the music
It takes me away
Just cut me loose (yeah)Nothing cuts me loose like the music
I cut a rug up all night long when I hear my favourite song
Nothing cuts me loose like the music
I said it cut me loose it just cut me looseNothing cuts me loose like the music
I cut a rug up all night long when I hear my favourite song
Nothing cuts me loose like the music
I said it cut me loose it just cut me loose
YEAH!
