

# Savages

## Pstereo Savages

It's alright now  
We're alright now  
Yeah we're fighters  
    You and me  
    Soul survivor  
Start a fight like lovers can  
Don't surrender to the man  
    We're alright now  
    We're alright now  
    They can't take us  
    They'll never break us  
She my baby she stands tall

She my baby above it all  
    Not a pussycat at all  
She's a leopard but she don't crawl  
    They can't take us  
    They'll never break us  
    They can't take us  
    They'll never break us  
    They can't take us  
    They'll never break us  
    Apart  
    Surround us
