

# Come On

Mark Owen

She likes electro  
I don't know much but I pretend to know  
I used to breakdance though  
Yeah, come on  
All at once my head is clear  
All at once I find you here  
Maybe this is how it is  
And everything is in its place  
You give me something left to see  
Better world, better me  
Break the mold that I am in  
Drain the color from my skin  
See, I will give up all I have  
To fill a moment now with you  
Be a thought you wanna keep  
Watch your silence while you sleep  
Yeah, I will give up all I have  
To hear you say you will stay  
I'd give it all away, I'd give it all  
Come on, 'cos I want you to know  
That you're all over me  
And I don't wanna fall  
So I land at your feet  
Oh my God, you're beautiful  
And I will bow before you now  
Fill me with your company  
Bring me down to my knees  
  
Tie me up and leave me here  
Hold your music to my ear  
Let me look at you again  
Let me look and take it in  
See, I will give up all I can  
To watch you light up when you smile  
Take the pain and fears away  
Hear you say that we're okay  
Yeah, I will give up all I can  
And maybe then you'll feel the same  
I give my heart away, I give my heart

Come on, 'cos I want you to know  
That you're all over me  
And I don't wanna fall  
So I land at your feet  
And the tide's coming in  
And I can't put it out  
And I don't wanna lose  
So I land at your feet  
Won't you step on my bones, yeah?  
Won't you let me in?  
And I'll kiss your palm this time, yeah  
And hope that you will hear  
Don't wait for it, don't leave  
Then, then my only friend  
Give me all you can  
You say you'll be my love
