

Replica

The xx

Seem right, seem wrong
Only difference is that I'm that one
Second time a wrap
Feels like this song's already been sung
Mirroring situations like you're an imitation
Do I watch and repeat?
And as if I tried to, I turned out just like you
Do we watch and repeat? They all say I will become a replica
Your mistakes were only chemical
Is it in my nature to be stuck on repeat?
Another encore to an aftershow
Do I chase the night or does the night chase me?
Mirroring situations like you're an imitation
Do I watch and repeat?
And as if I tried to, I turned out just like you
Do we watch and repeat? They all say I will become a replica
Your mistakes were only chemical
Do I chase the night or does the night chase me?
Do I chase the night or does the night chase me?
They all say I will become a replica
Your mistakes were only chemical
