

Mr. Mistah

Sol Seed

I woke up early on the weekend
got this feeling up in my head
I gotta take a step outside to see the world
Well, when we get to start observing all this pain and all this suffering
Really sense a scene that it ain't no good
You know I'll never give up
'cause I ain't trying to live up
to the expectation of division that's been posed on me
some people fighting they fust
I'm only looking for love
I ain't concerned about the way the things are supposed to be
You know that everything changes (ohohoooh)
Ain't nobody right forever in this life
What you perceive in as a strangeness (ohohoooh)
Could just be somebody else's path through their life
Get the party people rise uptake to the streets, now
Don't ever let the man make us stop moving
your feet and if we put our hearts together they will make one beat
We'll keep on answering to the rhythm of the synergy

singing
boom! it's the officer
boom! it's the soldier man
waiting for you learn to do bo-bombs
we value live seeds
you'll stumble maybe you'll see
that's no way to keep the peace
But I said boom it's the Mr. Revolutionary rebel
trying to put at peace the people, how to keep it on the level
but know we came all see I do also
love's the only way to the righteous life oh oh
to the righteous life oh oh

Well I'm never gonna try again
just to change your mind
because the truth of it of my ten
is just a waste of time
So I'll be redirecting my message straight into your heart
'cause that's where, the real revolution starts

stand up, pull over, move around
with this feeling
resolve my vision to when we shake down the ceiling
for when you be with the acceptance
then you'll be never afraid of just do your dance
singing...
