New Favorite Thing

Balligomingo

You came out of nowhere
A welcome distraction
A sight for my sore eyes
A most special attraction
Oh you saved me
Oh don't you know
You're my new favorite thing
Now I don't mean anything else
You're my new favorite thing
Makes me feel like I never felt before
New favorite thing
I want you more and more
And more
Like honey on my tongue
You melt and explore me
Where did you come from
Say you adore me
Oh baby don't let me go
You're my new favorite thing
Now I don't mean anything else
You're my new favorite thing
Makes me feel like I never felt before
New favorite thing
I want you more and more
And more
You make me feel like such a girl again
It's been a long time
It's been a long time
(New favorite thing)
New favorite thing
Now I don't mean anything else
You're my new favorite thing
Makes me feel like I never felt before
New favorite thing
Cause I want you more and more
And more
More and more and more
More and more and more
