Curious

Emblem3

Sometimes you just gotta get lost
yeah yeah
I say bless me with a heart of gold
a positivity and a story to be told
I tripped, fell down through the sky
its what it took for me to learn how to fly like
oh yeah
let my spirit fly
my intentions are not to intoxicate
but purify
give me truth or every time i hear a lie
joy be the only reason i get teary eyed
imagine
all Lennon had to say
to make us want to pray for peace every single day
keep your money don't want anything to do with it
reach your love, heart of gold and i'm never losing this
Curious
whatcha gonna do
lies for words and you find you really don't
care at all
i said you really don't care at all
just curious whatchu gonna do
lies for words and you find you really don't
care at all
i said you really don't care at all
I look in the mirror to figure out who i am
I thought i was a boy but i guess i am a man
i burnt a bridge but thats what it took for me to
build a dam
i hang my head
i dont wanna be that kind of man
no no
thats not how my daddy raised me
work your ass off boy
dont ever be lazy
i owned it on the ball field
so my pop praised me
you could never beat me down

or you could never phase me
a mans gotta do what a mans gotta do
even in the rough yeah you gotta see it through
have a nice trip though, ill see you next fall
the only thing i know is that i know nothing at all
just curious
whatcha gonna do
lies for words and you find you really dont

care at all
i said you really dont care at all
just curious whatchu gonna do
lies for words and you find you really don't
care at all
i said you really don't care at all
my feet are innocent
my soul it understands
my feet are innocent
my soul yeah it understands
oh yeah you know that my soul yeah,
understands..understands
i said sometimes feelings can be hard to understand
but if we understood them
there'd be no point to the plan
reach out with my hand
and to all of my fans
to let you know that if you fall
i will help you stand
to let you know that everyday i feel similar pain
the purpose of my music is to take it all away
so i say, salute you, freedom fighters
wave your flags high for,
liberty we will die for
driftin in the pursuit of happiness that we drive towards
a better future my people and me will strive for
im lost,
i find myself while i search
now i use music to pray with no words
when you lose what you love,
remember to stay strong
look out the window and remember life moves on
curious
whatcha gonna do
lies for words and you find you really don't
care at all

i said you really don't, care at all
just curious whatcha gonna do
lies for words and you find you really don't
care at all
i said you really don't care at all
my feet are innocent
my soul it understands
my feet are innocent
my soul yeah it understands
oh you know that my soul, yeah
understands..understands
