

Why Won't You Talk To Me

[Gerry Rafferty](#)

Why won't you talk to me?
I've done nothing wrong that I can see You know I can't take this silence, tell me what's wrong with you
If I'm supposed to feel guilty, tell me what did I do
It must be a reason for you acting this way
But I swear I won't know it 'til you come out and say Why won't you talk to me?
I've done nothing wrong that I can see I don't know why I'm trying to break down this wall
That you build up between us or nothing at all
It feels like a bad dream, it feels like a game
But I swear this is one time that I'm not to blame Why won't you talk to me?
I've done nothing wrong that I can see
